## **Bradford VCS Learning Directory 2007**

### **Introduction / Acknowledgements**

---

This Directory has been produced on behalf of Bradford & District Learning Partnership for the Working Together in Bradford Project. It is intended to provide a picture of the range and scope of learning provided by voluntary and community sector organisations in Bradford.

This is intended as a Guide only and is not a definitive list of learning provided by voluntary and community sector organisations.

It has been produced with the co-operation of a large number of organisations in Bradford and this is acknowledged with thanks.

This Directory brings together information about learning from various sources, collected during 2007

- A tele-survey of voluntary and community organisations in Bradford, commissioned by Bradford and District Learning Partnership in August 2007 as part of the Working Together in Bradford Project. This achieved a 50% response rate of organisations known to be involved in learning and a 30% response rate of organisations across the sector as a whole.
- Mapping of ACL, PCDL and basic skills contracted provision, undertaken by Bradford & District Learning Partnership in February 2007
- Mapping of ESOL provision in Bradford undertaken by Bradford & District Learning Partnership in November 2007
- A survey of BME organisations in West Yorkshire undertaken by Lancaster Consulting for the Working Together West Yorkshire BME Network.

The information contained in this document has been produced for the Learning and Skills Council and may not be reproduced without the permission of the authors.
